END USER LICENSE AGREEMENT (EULA) FOR PROXMOX VIRTUAL ENVIRONMENT (PROXMOX VE)

By using Proxmox VE software you agree that you accept this EULA, and that you have read and understand the terms and conditions. This also applies for individuals acting on behalf of entities. This EULA does not provide any rights to Support Subscriptions Services as software maintenance, updates and support. Please review the Support Subscriptions Agreements for these terms and conditions. The EULA applies to any version of Proxmox VE and any related update, source code and structure (the Programs), regardless of the delivery mechanism.

1. License. Proxmox Server Solutions GmbH (Proxmox) grants to you a perpetual, worldwide license to the Programs pursuant to the GNU Affero General Public License V3. The license agreement for each component is located in the software component's source code and permits you to run, copy, modify, and redistribute the software component (certain obligations in some cases), both in source code and binary code forms, with the exception of certain binary only firmware components and the Proxmox images (e.g. Proxmox logo). The license rights for the binary only firmware components are located within the components. This EULA pertains solely to the Programs and does not limit your rights under, or grant you rights that supersede, the license terms of any particular component.

2. Limited Warranty. The Programs and the components are provided and licensed "as is" without warranty of any kind, expressed or implied, including the implied warranties of merchantability, non-infringement or fitness for a particular purpose. Neither Proxmox nor its affiliates warrants that the functions contained in the Programs will meet your requirements or that the operation of the Programs will be entirely error free, appear or perform precisely as described in the accompanying documentation, or comply with regulatory requirements.

Ici ont choisie sur quel disque dur on veut installer proxmox :
Dans mon cas, ayant 3 fois le même disque dur et sans donner précieuse je prends n'importe lequel. Il faut minium 16go de stockage.

Proxmox Virtual Environment (PVE)

The Proxmox Installer automatically partitions your hard disk. It installs all required packages and makes the system bootable from the hard disk. All existing partitions and data will be lost.

Press the Next button to continue the installation.

- **Please verify the installation target**
The displayed hard disk will be used for the installation.
Warning: All existing partitions and data will be lost.
- **Automatic hardware detection**
The installer automatically configures your hardware.
- **Graphical user interface**
Final configuration will be done on the graphical user interface, via a web browser.

Target Harddisk	<input type="text" value="/dev/sda (465.76GiB, MB0500EBNCR)"/> <input type="text" value="/dev/sdb (465.76GiB, MB0500EBNCR)"/> <input type="text" value="/dev/sdc (465.76GiB, MB0500EBNCR)"/>	<input type="button" value="Options"/>
<input type="button" value="Abort"/>		<input type="button" value="Previous"/> <input type="button" value="Next"/>

On définit quel pays on est donc France et le reste va se configurer automatiquement le clavier et l'heure :

Location and Time Zone selection

The Proxmox Installer automatically makes location-based optimizations, like choosing the nearest mirror to download files from. Also make sure to select the correct time zone and keyboard layout.

Press the Next button to continue the installation.

- **Country:** The selected country is used to choose nearby mirror servers. This will speed up downloads and make updates more reliable.
- **Time Zone:** Automatically adjust daylight saving time.
- **Keyboard Layout:** Choose your keyboard layout.

The screenshot shows the 'Location and Time Zone selection' screen of the Proxmox VE installer. It features three input fields: 'Country' with a text box containing 'France', 'Time zone' with a dropdown menu showing 'Europe/Paris', and 'Keyboard Layout' with a dropdown menu showing 'French'. At the bottom, there are three buttons: 'Abort' on the left, 'Previous' in the middle, and 'Next' on the right.

Ici on va donc mettre en place le mot de passe de l'utilisateur root qui doit contenir 8 caractères minimum avec lettre, chiffre et caractère spécial. Puis il demande une adresse mail, vous mettez ce que vous voulez :

Administration Password and Email Address

Proxmox Virtual Environment is a full featured, highly secure GNU/Linux system, based on Debian.

In this step, please provide the *root* password.

- **Password:** Please use a strong password. It should be at least 8 characters long, and contain a combination of letters, numbers, and symbols.
- **Email:** Enter a valid email address. Your Proxmox VE server will send important alert notifications to this email account (such as backup failures, high availability events, etc.).

Press the Next button to continue the installation.
